

ACHIEVE EXCELLENT HOLE RESULTS

At DGI Supply, we provide an extensive array of drilling products, including solid carbide drills, exchangeable tip drills, and indexable insert drills. Our carbide drills are designed to ensure exceptional performance and reliability. Whether your project involves materials like aluminum, brass, or steel, our collection ensures you will find the perfect tool for your needs. This varied portfolio offers solutions for all applications and workpiece materials across multiple industries, such as automotive, energy, medical, and beyond.
