

IF YOUR SETUP ISN'T OPTIMIZED, YOUR PRODUCTION ISN'T EITHER.

HAIMER[®]
Quality Wins.

WHAT'S SLOWING YOUR PRODUCTION DOWN?

Spending too much time on tool setup?

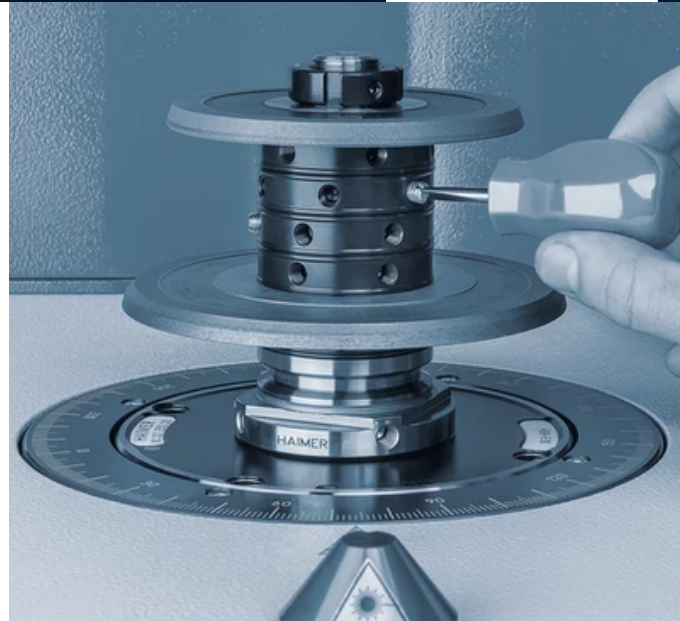

➔ Lost time = reduced spindle uptime

Not reaching your target metal removal rates?

➔ Slower cycles = lower output

Inconsistent tool life or premature wear?

➔ Instability costs you parts and profit

OPTIMIZE YOUR PROCESS: SHRINK FIT • BALANCE • PRESET

Meet with a HAIMER & DGI Supply representative to identify opportunities to:

- ✓ Setup inefficiencies
- ✓ Tool life improvements
- ✓ Opportunities to increase throughput

See the Tool Room of the Future in action
Visit our state-of-the-art HAIMER Technology Center

- ✓ Live demos
- ✓ Real applications
- ✓ Hands-on process optimization
