WALTER's solutions last longer to reduce downtime, provide consistent performance for optimal results, and are manufactured to the highest safety standards to keep metalworking professionals safe while they do their job.

Meet with your local WALTER Territory Manager to learn how WALTER solutions can cut costs and improve safety in every step of the metal fabrication process.

PREP

HEAVY MATERIAL REMOVAL

Industrial grade abrasives and power tools that provide fast, safe removal for an assortment of applications. Get the best productivity and highest overall cost reduction when you combine WALTER abrasives with WALTER power tools.

GRINDING WHEELS

XCAVATOR XX™

Aggressive removal with less pressure for comfortable heavy-duty grinding.

SANDING DISCS

XTRACUT™

Self-sharpening grains provide consistent removal throughout the life of the disc.

POWER TOOLS

IRONMAN™ ANGLE GRINDER

Added safety features help keep you safe during your unpredictable day.

LIGHT MATERIAL REMOVAL & SURFACE CONDITIONING

An assortment of high-quality abrasives and wire brushes that provide efficient removal while providing long life to assist with speeding up your metal prep operations.

FLAP DISCS

ENDURO-FLEX™

Controlled vibration-free removal and the most material removal per disc.

WIRE BRUSHES

POWER BRUSHES

Premium wire and perfectly balanced, our brushes are made with an internal plate holding wires in place for maximum strength and safety.

SPECIALTY GRINDING WHEELS

FLEXCUT MILL SCALE™

A unique diamond pattern designed to improve ejection and limit clogging.

CUTTING

Premium assortment of small and large diameter cut-off wheels that provide consistent performance, long life, and comfortable operation. Designs centered on reinforcement reduce the risk of breakage on the job.

SMALL DIAMETER CUT-OFF WHEELS

ZIP WHEEL™

Reinforced for added safety, a unique curved stripe design allows for cooler cutting resulting in faster cuts, industry leading life, and the lowest overall cost-per-cut.

SPECIALTY CUT-OFF WHEELS

COMBO ZIP™

Triple reinforcement allows for safe cutting and deburring without the hassle of changing wheels.

LARGE DIAMETER CUT-OFF WHEELS

CHOPCUT™

Quick cutting and exceptional lifespan, these large diameter wheels put less stress on both the operator and the tool.

HOLEMAKING

A complete offering of holemaking & drilling solutions from WALTER, Drillco and Triumph to help you make more holes faster no matter the application.

DRILL BITS

NITRO® DRILL BITS

Make more holes faster with drill bits designed to reduce walking while providing maximum lubricity for high performance and long life.

ANNULAR CUTTERS

DRILLCO ANNULAR CUTTERS

Make more holes faster with Drillco's assortment of premium quality High Speed Steel, Carbide and Nitro Cobalt cutters.

POWER TOOLS

ICECUT™ MAG DRILL

A complete family of units, all including Accudrill gauge technology to achieve maximum productivity while reducing risk of breakage or overheating.

WELD

WELDING HELMETS

VISION w/ BFFVX

An industry leading 17 square inch HD viewing area and the latest in auto-darkening technology to keep you safe while you weld.

WELDING LENSES

SINGLES HD LENSES

The latest in auto-darkening technology while providing unparalleled clarity, retrofit your current helmet with the finest technology available today.

AIR SYSTEMS

AIRPLUS PAPR UNITS

Receive a constant supply of fresh air while keeping harmful welding fumes and particulates out of your lungs.

WELDING PROTECTION

ArcOne PPE includes helmets, lenses, face protection, and respiratory protection. Industry leaders in auto-darkening lens technology with unparalleled optical clarity for safe and accurate welding every time.

ANTI-SPATTER

E-WELD 4™

VOC free anti-spatter provides a safer solution without sacrificing protection power or jeopardizing weld quality.

WELDING NOZZLES

PRE-COATED NOZZLES

Reduce time spent scraping nozzles and improve gas flow resulting in higher quality welds and reduced rejections.

ANTI-SPATTER

E-WELD PLASMA™

Save money by reducing time spent cleaning and replacing your cutting table slats.

WORKPIECE & EQUIPMENT PROTECTION

Produce higher quality welds and remove significant time and hassle from your finishing process by protecting your work pieces and equipment from weld spatter with our anti-spatter solutions.

FINISH

WELD REMOVAL & FINISHING

Work with your local WALTER Territory Manager, an expert in finishing, to help you choose the right abrasives to achieve the desired finish faster with less steps.

FLAP DISCS

ENDURO-FLEX 2-IN-1™

Remove welds quickly and finish in one step to get the desired finish faster.

SMALL DIAMETER DISCS FOR AIR TOOLS

TWIST DISCS

Speed up your finishing process and reduce change out time with WALTER's Twist Quick Change system.

POWER TOOLS

LINE-MATE III™

A variable speed linear finishing system that keeps a consistent RPM under load for uniform finishing.

CLEANING & PASSIVATING STAINLESS STEEL WELDS

WALTER offers alternative stainless cleaning solutions that are faster than a wire brush and safer than pickling paste. Stop sending your pieces out for passivation, WALTER products can help achieve it in-house.

WELD CLEANING UNITS

SURFOX 305™

Fast, safe weld cleaning with enough power to clean stainless MIG welds completely and with ease to achieve the highest level passivation.

WELD CLEANING UNITS

SURFOX TURBO™

A simple design for quickly cleaning heat tint and contaminants from stainless steel welds to achieve passivation without rework or extensive PPE.

SPECIALTY WHEELS

FX STAINLESS™

Effortlessly remove heat tint and discoloration while simultaneously leaving a #4 finish without risk of contamination.

WHAT DOES WALTER'S BREADTH OF METALWORKING SOLUTIONS MEAN FOR YOU?

ACCESS to local experts who understand a wide range of metalworking applications

SIMPLIFY with one point of contact when on-site consultation is needed to address metalworking pain points

IMPROVE by spending less time managing multiple suppliers and more time addressing other lucrative business functions

WALTER CAN CONSULT ON, AND PROVIDE SOLUTIONS FOR, A WIDE RANGE OF METALWORKING APPLICATIONS DURING A SINGLE VISIT!

CONTACT US FOR A CONSULTATION

Tell us about the pain points in your operations, and what working better means to you, so we can provide the right solutions to help you achieve your goals. Contact us today to schedule an on-site consultation with your local WALTER Territory Manager to optimize your process.
