TRIM® C286

ITEM NUMBER	SIZE
MTCC286270G	270 Gal Tote
MTCC28654G	54 Gal Drum
MTCC2865G	5 Gal Pail

CARBIDE GRINDING SYNTHETIC FLUID

TRIM C286 is formulated specifically for the carbide grinding industry. This synthetic product is intended for grinding carbide, but is equally good on ceramics, cermets, chill cast alloys and tool steels. C286 minimizes cobalt leaching while still maintaining superior cutting and non-cutting characteristics.

TRIM® C286 ADVANTAGES:

- Keeps super-abrasive wheels clean
- Does not attack wheel bonding systems
- Designed to carry grinding swarf to the filter but will release swarf in properly designed settling tanks
- Will not be stripped out by conventional filtration systems
- Low foaming and rejects tramp oil
- Superior sump life
- Resists cobalt leaching for improved operator safety, stronger parts and cleaner machines
- Very low carryoff for extremely low fluid operating costs
- Easy recycling or disposal with conventional techniques and equipment

FORMULATED WITHOUT THE USE OF:

- Chlorine
- Nitrites
- Formaldehyde releasers
- Boron
- Secondary amines
- Sulphur

AVAILABLE SIZES:

1-gallon jug
SKU: C286-1G
UPC-12: 641238082996

5-gallon pail
SKU: C286-5G
UPC-12: 641238082989

54-gallon drum
SKU: C286-54G
UPC-12: 641238082972

270-gallon tote
SKU: C286-270G
UPC-12: 641238083016
