Honeywell Uvex HydroShield™

Maximum protection now on a larger selection

TODAY'S ANTI-FOG

Regardless of industry, application or environment, foggy lenses are the number one challenge that users of safety eyewear face on the job. Foggy lenses expose workers to serious injury and significantly decrease productivity. Lenses fog for a number of reasons, all of which are related to temperature and humidity. When sudden changes in temperature occur, small pockets of moisture condense on the lens, causing a hazy-white fog to form, often immediately. The most common causes of fogging include:

- Transitioning between warm and cool environments
- Physical activity and exertion
- Handling materials with fluctuating temperatures
- Environmental and weather conditions

ANTI-FOG RE-ENGINEERED

HydroShield anti-fog coating is now available in a greater selection of Uvex safety eyewear models and tints to keep you fog free longer than ever before. The dual action HydroShield anti-fog lens coating provides up to **60X longer lasting fog-free performance** - even after extended wear and repeated cleanings - and provides **2X greater scratch-resistance*** than our next best anti-fog coating. HydroShield performance is based on independent lab tests when compared to median test results of other Uvex anti-fog coated products under the EN166 and EN168 testing standards.

- Permanently bonded to the lens
- Delivers CONSISTENT Fog Free time of greater than 180 seconds
- No application
- No maintenance

*Comparative lens life test performed using a Bayer Abrasion Test method and may vary between environment and application.

Uvex HydroShield™ Anti-Fog Coating

Consistently Clearer. Longer. Safer. 

HydroShield anti-fog coating is permanently bonded to the lens, featuring dual-action properties that keep lenses clear up to **60X longer** than our next best coating.

Hydrophilic Action

Moisture is absorbed by the lens.

Hydrophobic Action

Water droplets form and are repelled to the sides of the lens.

Ordering Information

HydroShield available on these top selling Uvex eye protection products.
